

Oklahoma Rehabilitation Council
Transition Committee meeting for the strategic plan
Date: September 15, 2016 Time 2:00pm
Location – Career Planning Center

With the Transition Committee, they had a lot of changes (for the good), less objectives, smart goals and activities that can be met!

Objective 1.1: The ORC will continue to increase transition resource links on the DSU website. (This was condensed immensely from the objective from last year)

Objective 1.2: The ORC will review DSU successful closure data for transition age youth to determine if there is a correlation between agency closures and demand occupations. (Same objective as last year)

Objective 1.3: The ORC will promote and share in demand occupations that could be a potential job match for consumers. (New objective that has been condensed to be met this year)

- **The ORC will disseminate the information to DSU staff.**
- **The DSU Business Service team will use the in demand occupation data to make connections to local businesses.**

Activities remain the same with the exception of the 2 page disability specific folder. It has been changed to doing research on it. Not all objectives and goals have been met, but there are many more met than unmet this year! That is a positive spin!
